Full stack Developer   Jan '22 - Jul '22
Freelancer   Nashik
I worked as a full stack developer and I worked on both front end and back end technologies and also on database design

Project : Online Clinic Web Application
- In this systems project, we used React for UI design and development and Express for Rest API development and MySQL for database design.
- The System is a web application that covers features of doctors details, Patients Records, online appointments, Patient reports, billings, clinical tests, medical store billings etc.
- The System also provide chat supports for the users and also provide the user with a quick and easy way to access the chat.
